

TOGETHER, WE ARE A UNION.

**CLERICAL, FOOD SERVICE, HEALTH, TECHNICAL,
AND STUDENT SERVICE WORKERS**

Who is NEA?

We are a union that **has a legally protected right** to negotiate on behalf of support staff like you to secure higher wages, better benefits, and improvements to our daily lives.

Together We're Strong, Together We're Heard

Without a union, support staff like us are underappreciated and often unheard. We are rarely asked for our opinions or communicated with when big decisions are made, but when more members like you join the union, administrators are forced to listen to us – **giving us a stronger voice to secure real pay increases, better benefits, and professional development opportunities to support our career and improve our daily life.**

Together, We Are a Union

- Our **voice is stronger** and more effective when we band together.
- We have a **proven track record of success**, but we need more members to amplify our voice.

NEA Delivers Real Change for Support Staff

HIGHER SALARIES AND BETTER BENEFITS

We work because we want to help students. We're not expecting to get rich, but far too often our work is undervalued. Our union has already secured some wins, but it's only a start because support staff deserve so much more.

Banding together is the best way to get paid what we deserve. With more members like you, we will have a stronger voice and be able to secure real pay increases, cost-of-living adjustments, and increases in retirement and health care benefits.

PROFESSIONAL DEVELOPMENT

Too often school boards and administrators forget that support staff want to gain new skills and advance in our careers. The union hasn't forgotten. That's why we are bargaining for paid professional development opportunities. We even offer online courses and some members have used them to earn professional certifications.

STOPPING PRIVATIZATION

Right now, school boards across the country are trying to privatize our jobs and replace support staff with private companies who would fire and rehire us to do the same work with lower pay and no benefits. But when we have a strong union, we can get teachers and parents on our side to save our jobs.
